

Social Capital + Social Infrastructure

People are the foundation to resilience.

Behind every business (including not-for-profits) are people and places to connect.

That's why we are passionate about building awareness, measurement and investment in social capital and social infrastructure.

At Resilient Ready we integrate social capital and social infrastructure initiatives and benefits into all our solutions.

This includes:

- Strategic Consulting and Advisory Services
- Program development and delivery
- Workshops and Training

“Social businesses bring multiple benefits to communities - economic opportunities, deeper social connections and hubs that drive connections and trust.”

Professor Daniel P. Aldrich
Global Disaster Resilience Expert

What is Social Capital?

Social Capital encompasses the networks, ties and trust that binds us.

What is Social Infrastructure?

Social Infrastructure are the places that build those connections.

Leading Australia's
Social Capital +
Social Infrastructure
Framework
