

# Multi-stakeholder Advisory

At Resilient Ready, we provide advisory services to all stakeholders who are invested in building knowledge and capabilities across business communities.

Being independent and external, we co-design solutions that will suit place-based or industry-specific needs.

We focus on strengthening:

- Business viability and sustainability
- Risk understanding and disaster preparedness
- Local social ties and connections

If you are a government, council, industry body or business community group, let's connect and talk about your needs.

**“Thriving businesses are essential to communities. We know that when local businesses thrive, communities do too!”**
